

The Department of Oncology, Cumming School of Medicine, University of Calgary in conjunction with Cancer Care, Alberta Health Services, invite applications for a full-time clinician/clinician scientist within the discipline of Medical Oncology at the Clinical Assistant Professor level or higher. The successful applicant will become a member of a multidisciplinary cancer program located at the Tom Baker Cancer Centre and the Foothills Hospital site of the Calgary Zone and will join a team of 26 Medical Oncologists.

Special training and/or a record of academic success in areas such as epidemiology, clinical trials, investigational new drug development, translational research and/or health services research would be desirable.

The Tom Baker Cancer Centre, a component of a provincial program of cancer control is the tertiary referral centre and the main cancer treatment, research and education facility for southern Alberta. Approximately 7,000 new patients are seen each year at the Centre in state-of-the-art facilities. Radiation services for southern Alberta are provided at TBCC by 23 Radiation Oncologists, and facilities include 9 linear accelerators, CT simulation, intensity modulated radiotherapy, brachytherapy, and stereotactic capabilities. The Provincial Bone Marrow Transplant program is also delivered in Calgary. Postgraduate training programs in Medical Oncology and other oncology disciplines (Radiation, Gynecological, Surgical, Hematology, and Palliative Care) are fully accredited by the RCPSC. The TBCC has a very active clinical research program, including in-house investigator led, cooperative group (such as the CCTG and NRG), and industry trials. Integration with the University of Calgary's Arnie Charbonneau Cancer Institute enables a strong translational and basic research focus.

In early 2024, we will be moving into what will be the largest free-standing cancer centre in Canada boasting 1.3 million square feet of innovation, academic excellence, and patient-centred care. The successful applicant will have an opportunity to help shape this exciting new cancer centre. The Calgary Health Zone comprises four teaching hospitals situated in the City of Calgary, and serves residents of Southern Alberta, and portions of British Columbia and Saskatchewan.

Named a cultural capital of Canada and one of the best places to live in the world, Calgary is a city of leaders - in business, community, philanthropy and volunteerism. Calgarians benefit from historically one of the strongest economies in the nation and enjoy more days of sunshine per year than any other major Canadian city. Calgary is less than an hour's drive from the majestic Rocky Mountains and boasts the most extensive urban pathway and bikeway network in North America.

You must have an MD degree and Canadian specialist certification in Medical Oncology, or the equivalent. You must be eligible for licensure as a specialist by the College of Physicians and Surgeons of Alberta and for appointment to the medical staff of AHS. Special training and/or a record of academic success in areas such as epidemiology, clinical trials, investigational new drug development, translational research and/or health services research would be desirable.

The successful applicant will be expected to obtain an appointment within the Department of Oncology at the Cumming School of Medicine at the University of Calgary. Preference will be given to Canadian citizens or those with permanent resident status.
